

Magnolia Premier Series Enthusiast System: \$5999¹

The Premier Series Enthusiast System is made up of the fundamental components every home theater needs to get the most from a high quality TV and sound system. Components include a Denon Blu-ray disc player, DirecTV DVR, Denon Surround Receiver, and Control4 system with iPod dock. Built to work seamlessly together, these components will add exceptional clarity and detail to your home theater, all while adding a functionality you may have never thought possible. And with a spot for a future or existing gaming system and other future components, this rack is built to grow as your system grows.

Panamax Surge Protector and Battery Backup

The MB850 offers surge protection and battery backup to 5 outlets providing constant power to your equipment during power disruptions. MB850.

Control4 Dock for iPod

Using the Control4 Dock for iPod allows you to access all the videos and music, including all playlists and cover art, from your iPod in any room. C4-IPDKTT1-E-B

Space for Future Source

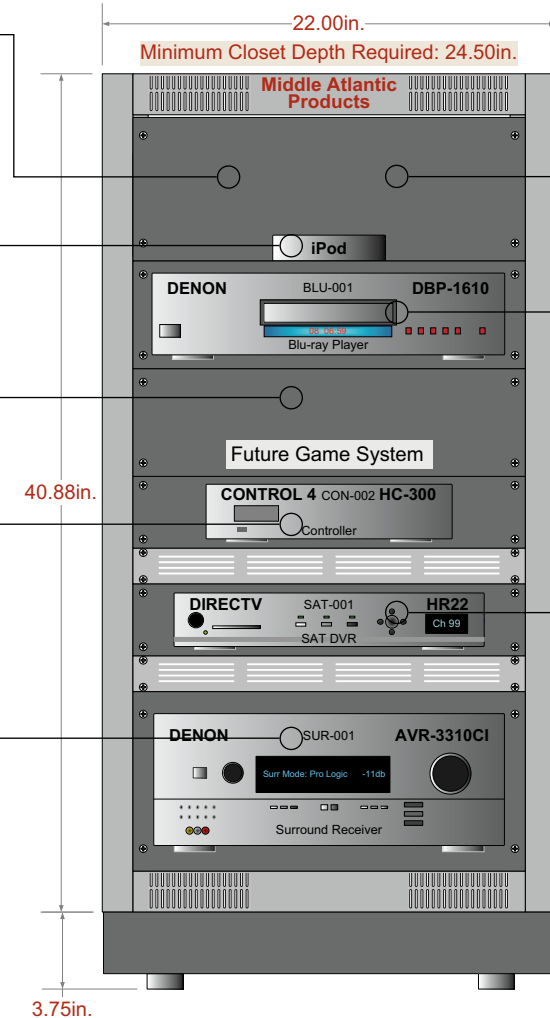

Open spot to add extra components as your needs grow - ie: gaming system.

Control4 Home Controller

Put your entire home right at your fingertips. The HC-300 allows you to automate your entire home, including your home theater, multi-room music, lighting, temperature, security and more from one simple remote. HC300.

Denon 7.1-Channel Home Theater Receiver with Networking

This A/V receiver delivers more than just exceptional audio and video, Ethernet connectivity allows you to do even more like audio and jpeg streaming, plus you can receive Internet radio and subscription music services like Rhapsody and Napster. AVR3310CI.

Linksys Router

This router lets you attach up to four additional network devices to one of the router's ports, while advanced integrated security features keep your network transactions safe from external threats. RVL200.

Linksys Switch

Connect up to eight separate devices into your network with this switch that doesn't split your connections but allows each device to receive transfer speeds of up to a gigabit per second. SD2008.

Denon Blu-ray disc Player

This Blu-ray disc player features HDMI Source Direct and 12 bit video processing, plus i/p scaling and upconversion of DVDs up to 1080p. Plus with its Ethernet port, it features Blu-ray Profile 2.0 BD-Live web-enabled interactivity, as well as firmware upgrade capability. DBP1610.

DIRECTV HDTV Receiver with DVR

Watch and record your favorite TV shows with this DIRECTV receiver that features 2 satellite tuners, so you can record 2 shows simultaneously, or watch one while recording the other. HR22.

¹Programming, cables, Mid Atlantic Rack parts and pieces, labor to build and test the system all included in the price. Labor to install in your home not included.

Installation:

Ask about our expert Installation: we come to your house, set up your rack system and ensure every component is working perfectly.
